Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am sick and tired of hearing about rates increasing, taxes increasing, and yet you never hear positive actions. You never hear about rates decreasing or taxes decreasing. I think this is outrageous. If the cost of living was decreased, everyone would be much better off. Anyway, if the rates increase for using my wireless phone, I will get rid of it. If others feel the same as I, you will be stuck with a huge loss wouldn't you? So, why don't you leave things alone!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
